WATER FOR LIFE

seqwater
WATER FOR LIFE

43.

44. The people of South East Queensland are using too much water.

45.

46.

47.

We are wasting water. We must learn to conserve it.

48.

WATER FOR LIFE

42.

41.

40.

39. After it rains a lot and the dams are full, we don't need the sea water.

38. Your treated drinking water can be a mix of sea water and dam water.

37.

36.

29.

30. You cannot drink water straight from the ocean. It is salty.

31.

32.

33.

34.

35.

28.

25.

24.

23.

22. We can use recycled water.

15.

16. Desalinated water can be used to supply our drinking water.

27.

26.

17.

We can make drinking water from the sea.

18.

19.

20.

21.

14.

13.

We need to look for other water supplies.

12.

11.

10.

9.

8. Sometimes we have droughts and our dams dry up.

START

2.

Water it stored in dams so that we can use it.

3.

4. Water is treated at a Water Treatment Plant to clean it so we can drink it.

5.

6. Water is stored in reservoirs until we need it.

7.
