

Seqwater Dam Improvement Program

Ewen Maddock Dam

April 2020

What's happening?

As part of our work to upgrade Ewen Maddock Dam, Hall Contracting's subcontractors will be removing some medium sized gum trees within the Maddock Park Area along the perimeter of Connection Road commencing next Monday 27 April 2020.

While we are committed to minimising removal of trees on the site, the area in question is necessary to ensure the dam embankment materials are safely stored and stockpiled as part of the dam safety upgrade needs. The trees to be removed are shown in the image below.

Seqwater will re-plant a new row of trees along the perimeter of the roadway where the trees are being removed on completion of our work.

Sign up for e-updates

We will be sending regular e-updates on the progress of this project to keep you informed. This is the best way to get the latest information, so if you know someone who might be interested in this project encourage them to subscribe by clicking [here](#).

Sign up for free dam release alerts

Sign up to our dam release notification service to be notified when Ewen Maddock Dam is spilling. This free service provides subscribers with notifications by email, SMS or recorded messages to telephone landlines when gated dams are releasing water or un-gated dams are spilling. [Register](#) now to get dam alerts or download the [Seqwater app](#) from the App Store or Google Play on your device.
