

# Seqwater Dam Improvement Program e-update

## Leslie Harrison Dam upgrade

The upgrade of Leslie Harrison Dam is continuing on schedule and the project is progressing well across the entire project site.

### Construction update

The construction site is now very busy. Our key priorities right now are:

- Completing work to anchor the dam spillway to the foundation bedrock
- Completing the new raw water pipeline that will take water from the dam to supply the water treatment plant for processing
- Construction of the new weighting berm behind the dam wall to improve strength and stability
- Moving all electrical and communication lines underground to facilitate construction work and improve operational safety and reliability.

[Click here](#) for a short video update from the construction site.

### Stay informed during the wet season

The wet season has begun! Stay informed and be prepared for storms, floods and other wet weather emergencies.

Seqwater provides a free [Dam Release Notification](#) service which sends notifications by email, text message, or even recorded messages to landlines. You can register to receive notifications at [this link](#).

You can also download the [Seqwater App](#) which includes dam release notifications, dam levels information, recreation, safety and lake closure updates and weather alerts..

### What to expect

With construction works occurring across the entire site, local residents should expect ongoing daytime noise from the use of heavy machinery around the site.

Work hours are 7am to 5.30pm Monday to Friday and 7.30am to 2pm on Saturdays, when required.

### Contact the team

If you have any questions about the upgrade, construction contractor Fulton Hogan's project contact details are:

Phone: 1800 405 086 (during work hours)

Email: [LeslieHarrisonDam@fultonhogan.com](mailto:LeslieHarrisonDam@fultonhogan.com)

We will keep you informed of the project's progress. If you know of anyone who would like to receive regular updates, please forward this update to them and ask them to contact the team.

For further details about the Leslie Harrison Dam Upgrade including our traffic and environmental management plans, visit [yourseqwater.com.au/leslie-harrison-dam-upgrade](http://yourseqwater.com.au/leslie-harrison-dam-upgrade)

Thank you for your patience and understanding while this essential work is carried out.
